Omega 3 fatty acids	1,33 %
DHA Docosahexaenoic Acid	0,58 %
EPA Eicosapentaenoic Acid	0,36 %
Vitamine A (E672)	22.000 U.I./kg
Vitamine D-3 (E671)	1.600 U.I./kg
Vitamine E (a-tocopherol)	120 mg/kg
Calories	3.960 kcal./kg

Giant Puppy

LARGE BREED PUPPIES

Description

Made with high quality raw materials and enriched with omega-3, for the benefit of the digestive, cardiovascular and immunological activities of your pet.

Particularly suitable for breeders.

Recommendations

Use this food from lactation to 12-18 months, depending on the breed. If your puppy is less than 3 months and is not used to consuming dry feed, it is appropriate to moisten the croquettes with warm water, taking care to remove what has not been consumed within a maximum period of three hours. It is advisable to divide the recommended 3-4 doses before 6 months which may be reduced to 2 from the 6th month daily amount. It is important to adjust without exceeding the recommended daily total amount. Always keep clean and fresh water available.

Presentation

Bag of 20 kg.

Appearance

Extruded croquettes natural color.

Stability

12 months in original container maintained in conditions free of moisture and excessive heat.
